

Kindergarten Summer Reading

Incoming kindergarten students are required to read The Kissing Hand by Audrey Penn with a parent. This book can be helpful with the kindergarten transition for both parents and children. We will have activities to go along with the book the first week of school.

We encourage you to read picture books and level 1 books with your child over the summer. Level 1 books are simple readers with easy words for children to begin to recognize and read for themselves. Level 1 books will be labeled on the front.

Your public library is also a wonderful resource for new books and summer reading programs.
