

Hello Families!

Summer is finally here! Time for relaxation, flip flops, and lots of fun in the sun! Over the summer, children often lose critical skills that they have learned throughout the year. Reviewing and practicing these skills briefly each day can help students retain important knowledge!

To support you in this effort, I am providing you with this "Suitin' Up for First Grade" activity pack. This pack contains the materials to complete just one activity each weekday during the summer - keeping the work sessions brief and fun!!

In addition to this pack, I also encourage you to read every day! Studies have shown that students who read during the summer lose less learning than students who don't. Have a TOTAL blast this summer!

Happy summer and happy learning!!

Sincerely,

Mrs.
Mulloy
